AS COMPLICATED AS EVER.

THE MICHIGAN CENTRAL NOW HAV-ING TROUBLE.

Their Switchmen and Engineers Strike, and Later They Return to Work-The Burlington Strikers Want Arbitration. Young Logan's Bravery-Labor Notes.

CHICAGO, April 4.—The strike situation remains as complicated as ever. The Burlington officials savagely declare that they will fight until doomsday rather than give in.

The regular union switchmen of the Michigan Central's yards did not report for duty this morning. The engineers were at their posts however, and took out their machines. When they saw that the regular switchmen were not at work they run their a igines back into the round house and left them there. This move comprised the whole switching force of the yards. The officials of the road immediately called upon a force of men gathered from points along the road outside the city, numbering about sixty. These men, it was claimed, are all experienced engineers, firemen and switchmen and would do whatever they were asked to do in the way of handling freight.

The new force of men which the Michigan Central officials have counted upon to replace the striking yard crews, are from Jackson, Mich. They will not go to work. They claim they were not told the real situation when they were brought here, and that they cannot take the place of the strikers, being Brotherhood men themselves. As soon as they saw the condition of thing in the Michigan Central yards, they refused to man an engine and up to a late hour not a car had been moved in the yards.

A number of the new men left the yards for the general headquarters of the Brotherhood at the Grand Pacific to have a consultation with Chairman Hoge regarding the

An Effort Toward a Compromise, CHICAGO, April 4.—An effort toward a compromise of the strike on the Chicago, Burlington & Quincy was made Monday evening by the Brotherhood of Engineers and Firemen. A card embodying a concise statement of the situation from the men's standpoint, but giving no new facts, was is-

sued by them. It is addressed "To the Public," and signed by S. E. Hoge on behalf of the engineers, and J. H. Murphy for the fire men. The meat of the document is the concluding paragraph, which involves a fresh offer of arbitration, this time on an entirely new basis. The idea is that the arbitrators, instead of coming partly or wholly from outside roads or other professions, be selected from among the Burlington's own em-

The document says in this connection, that if the Chicago, Burlington & Quincy company is satisfied with the present condition of affairs, "it has but little care for either the business or the lives of the public. We stand, as we have stood all the time, ready to submit our case to a board of fair arbitrators, and we believe such a board can be chosen from the railroad employes of this company. An offer is also made to submit the trouble to three railroad presidents or general managers. Mavin Hughitt, president of the Chicago & Northwestern, is named as a man who would be an acceptable arbitrator to the Brotherhood, the Rurlington company to name a second abitrator, who in common with Mr. Hughitt should choose the third.

John A. Logan, Jr., Under Fire.

Youngstown, O., April 4.—John A. Logan, Jr., with Sheriff Warnock, of New Castle, and a son of the sheriff, successfully held at bay 300 infuriated Italians and Swedes yesterday at Carbon. Logan is manager of the Carbou

limestone quarries. A reduction of wages went into effect yesterday, and was accepted by the men at one quarry, while those at the other two quarries struck. At noon the strikers, accompanied by a number of em-

ployes at Green's JOHN A. LOGAN, JR. quarry, where a work. They were armed with revolvers, knives and clubs.

Logan, with Sheriff Marnock and his son, intercepted the mob before it reached the quarry, and warned the men that further approach would be resisted by force. The warning was not heeded, and Logan and his party fired over the heads of the rioters. The fire was returned and a fusilade followed which ended in the retreat of the mob. Only one man was hurt, an Italian. Six of the ringleaders were arrested and others will be locked up to-day. During the riot an Italian crept up behind Logan and was about to run a knife into his back, when the sheriff disarmed him.

Thomas B. McGuire Interviewed. AMSTERDAM, N. Y., April 4.-Thomas B.

McGuire, of the general executive board of the Kights of Labor, has been in town for the past week. Meeting him last evening, a United Press reporter asked: "What do you think of the railroad troubles in the west?"

"The Chicago, Burlington & Quincy en-gineers are virtually beaten," Mr. McGuire

replied. "And there is no use in their prolonging the conflict. It is the Kights of THE BOULANGER CRAZE. Labor who has beaten them. Our people have been getting even with the Brotherhood for its course in the southwest and Reading strikes. We could have beaten the road in the southwest had it not been for the Brotherhood. For a number of days not a wheel turned on the road: the Brotherdood treated us in the same way during the Reading strike. Powderly's letter to Arthur at the opening of the Chicago, Burlington & Quincy strike was a scorcher, by the way."
"It did not seem to have the effect of keeping the knights from helping the company, despite Mr. Powderly's appeal to them to remain neutral," said the reporter.

"No, it was a request, not an order. Had it been an order, none of our men would have taken an engine. The Brotherhood can now see the result of holding aloof from the Knights of Labor. Their motto has been, 'No entangling alliances.' I guess they see now that an 'entangling alliance' would have been a good thing in this struggle."

"Do you not think that their defeat in this strike will be a fatal blay to the Boother.

this strike will be a fatal blow to the Brother-

"No, I will not say that. Labor organizations cannot be killed. They have come to stay. This may be a good thing for the Brotherhood. It may teach them a useful esson. I think that the end will be that the Brotherhood will either come into the Knights of Labor or will enter into some kind of a contract with them."

Brotherhood Men Denounced.

CHICAGO, April 4. - Advance sheets of the report of the grand secretary of the Order of Railway Conductors, to which allusion was made in these dispatches several days ago, are being sent to-day by order of the executive committee to the general officers of the principal railroads of the country. The report is entirely given up to a scathing in-dictment of the Engineers' Brotherhood, the members of which are donounced as unprincipled, underhanded and deceitful. Numerous specifications in support of the charges are given, and the report declares that the conductors want no alliance with other railroad men's organizations.

DEATH ON THE SCAFFOLD.

Adam Volvovitch Pays the Death Penalty at Wilkesbarre, Pennsylvania.

WILKESBARRE, Pa., April 4.—A big crowd surrounded the prison this morning for the purpose of witnessing the execution of Adam Volvovitch, but Sheriff Search only admitted about two hundred people. The hanging was announced to take place at 11:40. Religious services were held in the cell of the condemned man for nearly two hours, and at 11 o'clock Volvovitch said that he was ready. His arms were soon bound and the march to the yard was begun. His spiritual advisers supported him on either ride, prayers being said on the way. The prisoner was then pinioned, the noose adjusted and at 11:21 the trap was sprung. Death resulted from strangulation after the body had been hanging fifteen minutes.

The crime for which Adam Volvovitch was hanged to-day was a cold-blooded and brutal one. A stranger with plenty of money giving his name as Stanislaus Bioski, appeared in the village of Miners' Mills, about three miles from here, on August 17, 188/. He took up his abode with Volvovitch. On the night of the crime the latter persuaded Bioski to take a walk with him towards Pittston. When a mile and a half above Miners' Mills, Volvovitch shot Bioski three times in the head. He then robbed his victim of his watch, chain, coat and money and left Bioski lying on the ground moaning with pain. Bioski was found by some trainmen and moved to Miners' Mills, where he died on the following week. The murderer fled to Jersey City, where he was arrested on August 21. He pleaded self-defense, but the evidence was conclusive as to the murder being for the purpose of robberg, and Volvovitch was sentenced to be hanged.

IT IS AGAIN ON IN FRANCE AND ITS SPREAD IS RAPID.

It is Possible for Ilim to Become the Leader of Men and Measures in France and to Ursurp the Dictatorship-The German's Caution on the Frontier.

Paris, April 4.—The recrudescence of the Boulanger craze in France, its rapid spread and the influence it must necessarily have upon the future of the republic, induce the belief that Gen. Boulanger was not only not averse to being removed from the army, but actually shaped matters so that his retirement might be brought about, and in such a manner as to present him to the public as a martyr to the jealousy of the politicians in control of the government.

BOULANGER-SKETCHED FROM LIFE. Gen. Boulanger, it is argued, was in the power of his enemies as long as he remained in active pursuit of his duties as the commander of an army corps, which fact the treatment he had already received at the hands of these men abundantly attested. He had nothing to hope for under the government, which had gone to the length of its power to humiliate him, nor could he enter upon a political career while he yet remained in the army.

To resign would be an exhibition of cowardice and an admission of the justice of acts of the ministry which practically banished him from Paris, so he set himself at work to provoke the government to depose him from his command and dismiss him

from the military service. The purblind ministers seeing nothing in his acts but defiance, and in their own nothing but retaliation and additional humiliation of their arch enemy, hastened to place a weapon in his hand, with which he has been able to sweep off every one of their heads within a fortnight of his acquiring it. By the stupid action of the government in dis-missing Boulanger instead of retaining him and subjecting him to wholesome discipline for his implied contempt of ministerial authority, the popularity of that officier has been very much increased and his power for

good or evil enhanced doubly. He can now, while posing with some degree of truth as the basis of his claims as a martyr to the cause of the democracy of France, enter the chamber of deputies and deliver himself of fulminations against his enemies and bid for increased popular support with entire freedom and with prospects of success that are already appallingly apparent to the short-sighted men, who believed they had effectually removed him from their path when they deprived him of his command.

Gen. Boulanger's splendid abilities as an organizer, have stood him in good stead in his differences with MM. Rouvier and Tirard and their equally weak colleagues, and if in his parliamentary career he shall display a similarity high order of generalship, nothing but his own act can prevent him from becoming the foremost leader of men and measures in France, and if he shall seize the power placed within his reach and usurp the dictatorship, the men whose petty persecutions aroused public sympathy in his favor and made it possible for him to overthrow the republic, will find upon their shoulders a greater burden of the responsibility than they are able to bear.

The members of the new cabinet held a meeting at the Elysee palace, the conference lasting five hours.

Advices from Avricourt say that the German police have increased their precautions on the frontier, and now refuse admittance to every one who is not provided with authority to enter Alsace-Loraine.

Negroes Vs. Irish-One Dead and Two

Seriously Injured-A Lynching Averted. LIMA, O., April 4.—The election passed off peaceably until in the evening about 8 o'clock, when a frightful and bloody riot took place. There has long been a vendetta here between the young Irishmen and the co'ored men.

The colored men started up street to a saloon kept by Manning Brothers. They proceeded to do up the Irish boys in this place, when they were thrown out and the fight became general on the sidewalk. The negroes pulled out knives, razors and threw stones and began slashing right and left. Patrick Hughes, a boy sixteen years old, was cut four times and died immediately.

Stine Stotzey, another young man, was so badly cut that he is not expected to live, as was also Patrick Clark, another boy. Dave Gallagher was also badly cut trying to quiet the riot. The police arrived upon the scene and arrested three of the offenders, among them the two who did the cutting, William Gorns, Frank Crowder and another, whose name could not be learned. The murderers were secreted by the officers

and a mob of infuriated whites supposing they were arrested, marched to the jail, compelled the sheriff to give up the keys, and searched for them for lynching purposes. In the melee Sheriff Hoagland's assistant, Hunter, received a fearful beating.

The city is wild with excitement, and tl murderers will not last many minutes after they are found.

Twenty-Eight Horses Smothered-Guests of a Hotel Narrowly Escape.

CHICAGO, April 4.-Fire in a basement stable adjoining the Adams house at Lake street and Michigan avenue, early this morning, smothered twenty-eight horses and

caused a loss of about \$5,000. The hotel adjoining fortunately had but few guests. Most of these and the servants were stupefied by the smoke and it was only by the greatest exertions on the part of the firemen and the police that all were saved. Among those who had narrow escapes were: Daniel Sweeny and Montague Stapleton, two railroad men; Clark McCullough, the clerk, and his roommate Joseph Williamson, and M. E. Neble, a theatrical man. Mary Condel and Nellie Carter, two domestics, were dragged from the basement.

He also conferred during the day with Mr. George Philler, president of the First National bank, Wharton Barker, Isaac Hough and others. WILL L. FITCH, of Vanceburg, is suggested as "good Congressional timber" on the Republican side of the woods. Mr. Fitch is a nice clever fellow, but his friends oughtn't encourage him in his Congressional aspirations, if he has any. No nomination the Republicans cor d make would please the Democrats better.

McKinley's minority report of the Ways and Means Committee shows how inconsistent the Republicans are on the tariff question. It is in almost direct opposition to their party declarations in favor of "correcting the inequalities" of the present system. In this connection we might add that the Democrats are gaining strength in their fight, and the prospects in favor of tariff reform are brightening.

THE GENERAL ASSEMBLY.

Proceedings of Legislature of Local and General Interest.

Hon. John F. Hager, of Ashland, and Professor H. M. Weaver, of the Southern Business College of Louisville, were appointed a committee to examine the Treasurer's office. They are now engaged in the work.

The bill appropriating \$200,000 to complete the Branch Penitentiary at Eddyville has passed the Senate. The prison is to be completed with this sum, to accommodate 418 convicts. One Commissioner, to be appointed by the Governor and subject to removal by the Executive, is provided, in place of the present board, at a salary of \$250 per month.

The bill incorporating the Mt. Olivet Deposit Bank has passed both houses.

The House has passed a bill making it lawful for any unmarried woman under sixteen years of age to serve as a deputy in the office of County Clerk in Lewis and Henderson counties.

Seventy-six local measures passed the House last Friday.

An amended resolution by Mr. Reed, offering a reward for the capture and conviction of J. W. Tate, was adopted. The amount is \$5,000, and the Auditor is authorized to pay same upon the order of the Governor.

THE Senate passed a bill regulating and limiting the amounts which counties in this State may vote to railroads to 4 per cent. of the assessed value of real and personal property. The bill confers no right to vote, but just provides when a vote is taken it shall not be for a greater amount than 4 per cent.

The Governor used his veto prerogative on the bill to furnish all the counties with copies of the General Statutes. His reason was that, under an old law, if this bill was permitted to pass, it would cost the State not less than \$30,000. The veto was unanimously sustained.

Senator R. M. Pieratt, of West Liberty, Morgan County, died Monday, after a brief illness, from rheumatism of the heart. The Senate adjourned yesterday in respect to the memory of the deceased.

for the week just closed amount to 1,204 hhds.,
with receipts of 499 hhds. for the same period.
The market has shown more activity during
this week and prices have improved some on
all grades of burley both old and new. It now
seems evident that the preparations for the
next planting have been considerably retarded by the decline of February and March.

WAHINGTON NEWS NOTES.

THE CLOSING ANNOUNCEMENT OF THE WOMEN'S CONGRESS.

The Official Correspondence of the San Difficulty Sent to the House by the President-Congress Will Investigate the Burlington Strike.

WASHINGTON, April 4 .- The international council of women, which was in session here last week, in closing, makes the public announcement that fifty-three different organizations of women have been represented on its platform by eighty-seven speakers, and delegates from England, France, Norway, Denmark, Finland, India, Canada and the United States. All of these organizations but four are of National scope, and three are of National value.

The subjects of education, philanthropics, temperance, industry, professions, organizations, legal conditions, social purity, political conditions and religions have been discussed. While no restrictions have been placed upon the fullest expression of the most widely divergent views upon these vital questions of the age, it is cause for rejoicing that these sessions, both executive and public, have been absolutely without friction.

It is the unanimous voice of the council that all institutions of learning, and of professional instruction, including schools of theology, law and medicine, should in the interests of humanity be as freely opened to women as to men. That opportunities for industrial trainings should be as generally and as liberally provided for one sex as for the other; and the representatives of organized womanhood in this council will steadily demand that in all avocations, in which both men and women engage, equal wages shall be paid for equal work, and finally that an enlightenel society should demand as the only adequate expression of the high civilization, which is its office to establish and maintain, an identical standard of personal purity and morality for men and women.

The Samoan Island Trouble.

WASHINGTON, April 4.—The president has sent to the house the official correspondence between the state department and Germany, growing out of the recent troubles in the Samoan island. The correspondence is voluminous, and all points of especial interest have already been published, unofficially.

The last letter of the series, written by Secretary Bayard to Minister Pendleton, on the 17th of January last, summarizes the situation. The secretary says that a conference was held in Washington last summer by representatives of the United States, Great Britain and Germany, to endeavor to agree on a plan of government for Samoa. It was then practically agreed that a new king should be elected according to the customs of the islands. The conference then adjourned to allow the representatives to report to the various governments interested, with the understanding that they should meet again in the autumn. One month after the adjournment the German minister called at the state department and left a memorandum, stating that the German government had declared war against Malietoa.

The forcible installation of the king, the secretary says, was worse than the original proposition by the Germans, which was that the power having the largest business interests in Samoa should appoint the king. In conclusion, he says that he cannot approve the action of the German government in this matter, and while he is willing to accept the explanation that they were influenced by a desire to properly protect the people, he canto believe that has been a proper one.

Will Investigate the Strike.

WASHINGTON, April 4.—The house committee on commerce has agreed to Mr. Anderson's substitute to Mr. White's resolution providing for an investigation of the Chicago, Burlington & Quincy railway strike, by a special committee of five to be appointed by the speaker.

The resolution declares that the locomotive engineers now employed are incompetent and that the claim of resumption of public duties by the Chicago, Burlington & Quincy is a fraudulent pretense and a gross imposition upon the public, placing in imminent peril both life and property. The committee is directed to go to the scene of the strike, call for witnesses and papers and investigate and ascertain what is necessary in the way of legislation to protect interstate commerce.

The Vacant Seat.

New York, April 4.—The Herald's Washington despatch says there excellent reasons for saying that William L. Putnam, of Maine will be tendered a place on the United States supreme bench. The president is said to have been so pleased with Mr. Putnam's conduct of the fishery negotiations that he tendered him the first vacancy among the associate justices, and his friends argue from this that its not unlikely he will be appointed chief justice, as he is as competent to fill the higher as well as the lower position on the bench. If, however, they are mistaken, it is not improbable that Messrs. Field or Miller may be advanced to the chief justiceship and Mr. Pitman given the vacancy thus

Accident to a Bicyclist.

WASHINGTON, April 4.-Professor E. A. Paul, principal of the District of Columbia high school, died here this morning of injuries received on Saturday last, while riding a bicycle. In some way the hostler of Senator Cullom, who was exercising the senator's horses, allowed them to run into the bicycle ridden by Mr. Paul, throwing him from the machine. The horses became entangled in the wheel and falling rolled over Mr. Paul, who was prostrate on the ground. His spine was broken and other injuries received, from which he died this morning.

New York's Old Postoffice.

NEW YORK, April 4.- The secretary of the treasury informed the house to-day that the city of New York purposes to sell the old postoffice for arrears of water tax. He says also that there are liens on the property growing out of the transfer so the Mutual Insurance company.

A Ten-Round Fight.

NEW YORK, April 4.—Mike Brown, of Philadelphia, and Jack Young, of New York, fought ten rounds near New Brighton, Staten Island, this morning for a purse of \$250. Brown was knocked out in the tenth round.

She resolutely signed away her immense dower rights to make good her husband's failure and goes forth penniless but honored by all right thinking people.

Chief Justice Waite's Will.

TOLEDO, O., April 4.—The will of Chief Justice Morrison R. Waite was admitted to probate Monday. It is a very brief document, and begins thus: "I, Morrison R. Waite, of Toledo, temporarily residing in Washington, D. C.," showing that the chief justice always regarded Toledo as his home. He leaves his property to his widow, Mrs. Morrison R. Waite, who is made sole executor without bond, and he explicitly states that no inventory is to be made. He was worth about \$200,000.

Called to His Door and Shot.

St. Louis, April 4.-George Dennison, a boss carpenter living in Carondelet, or South St. Louis, was called to the door of his house Monday night and shot and killed by John Connors, a carpenter whom he discharged Saturday night. Connors made his eseape in the darkness and is still at large. He is a single man and had not been living in Carondelet very long. Dennison was thirty years old, and leaves a wife and two chil-
